

SLEEP SOUND THERAPY SYSTEM AVAILABLE FROM ATA

Everyday sounds may mask the tinnitus during the daytime, making it either easier to deal with or completely inaudible, for some people, tinnitus can become more of a problem during quiet times of the day or at night. Many people find relief from tinnitus by adding an external competing sound at a constant low level. Sound generators produce a constant sound designed to make tinnitus seem less intrusive.

Featuring clinically proven sounds from world renowned doctors and the world's finest authentic nature sounds.

Featuring 24 clinically proven sounds, including, ocean surf, summer night, stream, delta voyage, waterfall as well as standard white noise. The Sound Oasis incorporates the world's only "sound card" technology which enables you to change the sound themes by simply inserting a new memory card containing 12 different sounds ideal for all tinnitus sufferers for home or work.

Sleep Timer with Auto Shutoff - continuous play or auto shutoff in 30, 60, 90 minutes.

Battery or Outlet Powered - AC adapter (included) or 4 "AA" batteries (not included).
